### **BETA C45PRO 2.0**

#### **Elegant Design and 61.5 cm Deep Worktop for Optimum Everyday Performance**

An evolution of the C45PRO workshop equipment line, **Beta C45PRO 2.0** has been completely redesigned to offer a **larger, more comfortable and functional work surface**, perfectly suited to daily workshop activities, thanks to its new **61.5 cm** deep worktop.

The range stands out for the **quality of its components**, built to be robust and reliable, capable of withstanding daily wear and tear while ensuring long-lasting durability.

**Beta C45PRO 2.0 is designed to help keep the professional workspace tidy and well organized.** It is available in **predefined combinations**, which can be modified and expanded over time as needed, or it can be **built from scratch** using the online configurator available at [www.beta-tools.com](http://www.beta-tools.com).

**It combines aesthetics and functionality:** its design is unmistakably Beta, with its matt grey color, orange-finished handles and chrome logos.

#### **Key Features:**

- **61.5 cm deep worktop**, available in multi-ply wood or MDF with stainless steel coating.
- **Maximum configurability to meet professional needs:** predefined combinations that can be expanded and customized over time, or fully tailored layouts using Beta modules and accessories to create the ideal workstation.

- **Outstanding quality and durability:** components are sturdy and reliable, designed for long-term use. High-grade materials and structural enhancements ensure maximum resistance to daily workshop stress.
- **Distinctive design:** unmistakably Beta, with a new matte grey color, orange-accented handles, and chrome logos.
